

PROJECT PROFILE

Project:- Derby General Hospital – Acute Phase I & II (PFI)

Market Sector:- Healthcare

Client
Southern Derbyshire NHS Trust

Main Contractor
Skanska Derby

Design Consultant
Troup Bywaters & Anders

Cost Consultant
Ridge Property & Construction Consultants

Project Value - £334 Million

Sub-Contract Value - £10 Million

Sub-Contract Programme – 36 months

Project Description

Derby City General Hospital is a large PFI project constructed on the site of the existing hospital.

Scope of Services

ASM worked directly for Skanska to deliver a full airside package including setting to work and commissioning. Based on the successful delivery of Phase I, ASM were able to negotiate the second phase of the project. This resulted in the overall value of the project rising from £4 million for the 1st phase to a total of £10m, inclusive of Phase II and the Acute Building.
