Market Sector: - Healthcare

Client
NHS Trust

Main Contractor
Skanska Barts & The London

Design Consultant
DSSR

Project Value - £1.2 Billion

Sub-Contract Value - £10 Million

Sub-Contract Programme – 2 years

Project Description

The largest PFI hospital development in Europe, located adjacent to the existing site. A multi-storey development of 16 floors built in a particularly congested location.

Scope of Services

ASM were engaged in a partnering agreement for a year prior to project commencement to provide specialist advice during the design stage.

ASM's engagement was for an airside package including the supply and installation of duct mounted equipment. At peak ASM had in excess of 100 staff on site.
