

PROJECT PROFILE

Project:- Walsall Manor Hospital PFI

Market Sector:- Healthcare

Client
NHS Trust

Main Contractor
Skanska Walsall

Design Consultant
WSP

Project Value - £170 Million

Sub-Contract Value - £3.1 Million

Sub-Contract Programme – 20 months

Project Description

Walsall Manor Hospital is a large PFI project constructed adjacent to the site of the existing hospital. When completed, the existing and the new hospital will merge into a single large hospital.

Based on the successful delivery of the recently completed 5 year Derby Hospital project, ASM were invited to tender for the new Walsall project and were successfully appointed in December 2008. We are on target to bring a successful conclusion to the project in the summer of 2010 as per program.

Scope of Services

ASM are working directly for Skanska to deliver the ventilation package including the commissioning. ASM are also responsible for providing specialist cleaning of the ductwork systems serving the clinical areas. Our package also includes for the provision of specialist fume extract systems within the laboratories.
